

Dear Dastrup Dental Patients,

We hope this message finds you and your families doing well. The COVID-19 pandemic has challenged us all with a different way of life and has left us to find our “new normal”. Dastrup Dental thanks you for your patience and understanding during this period. The health and safety of our patients and staff are, as always, our top priority.

As we re-open for dental appointments, we will continue to use the recommended universal precautions but also add in some additional protections. Although our team is already highly trained, we have taken extra coronavirus training and have tested our new protocols and products.

- We are fogging our practice three times a day with a ULV fogger and a safe hospital grade disinfectant.
- We have HEPA-13 medical grade filtration systems in the building and in each treatment room.
- We will check temperatures and test oxygen saturation to check for asymptomatic carriers.
- We are monitoring our team members each day with the same protocols.

To ensure the well-being of our patients and dental team, we ask that you kindly do the following:

- Call when you arrive at the office. We will ask a few screening questions and let you know when you may enter the building.
- Please come alone and with as few belongings as possible.
- Please wear a mask or face covering.

- Use hand sanitizer as you enter and exit the building.
- If you have been in contact with someone who has tested positive for COVID-19 in the past 14 days, please reschedule your appointment.

We care deeply about the safety of our team and our patients.

Thank you and best wishes to everyone from all of us here at Dastrup Dental.
